**Laboratory Waste Temporary Storage Classification Table**

Classification	Characteristic	Waste Content	Packaging Dimension (cm)
I	Laboratory Combustible Waste	Plastic pipettes, Rubber gloves, syringes and needles, PE bottles, pipette tips, microcentrifuge tubes, wipes	55 (L) * 43 (W) * 41 (H)
II		Petri dishes, electrophoresis gels	48 (L) * 43 (W) * 19 (H)
III	Laboratory Non-Combustible Waste	Vials/Cover slips/Microscope slides, GC vials	40 (L) * 36 (W) * 19 (H)

Remarks :

1. Please wrap the waste in a plastic bag before placing it in the carton.
2. For wipes, please determine their type yourself. If they were used only for general cleaning and are not contaminated with chemicals, they should be considered regular trash and are not included in this classification table.
